

The Wall Buddy

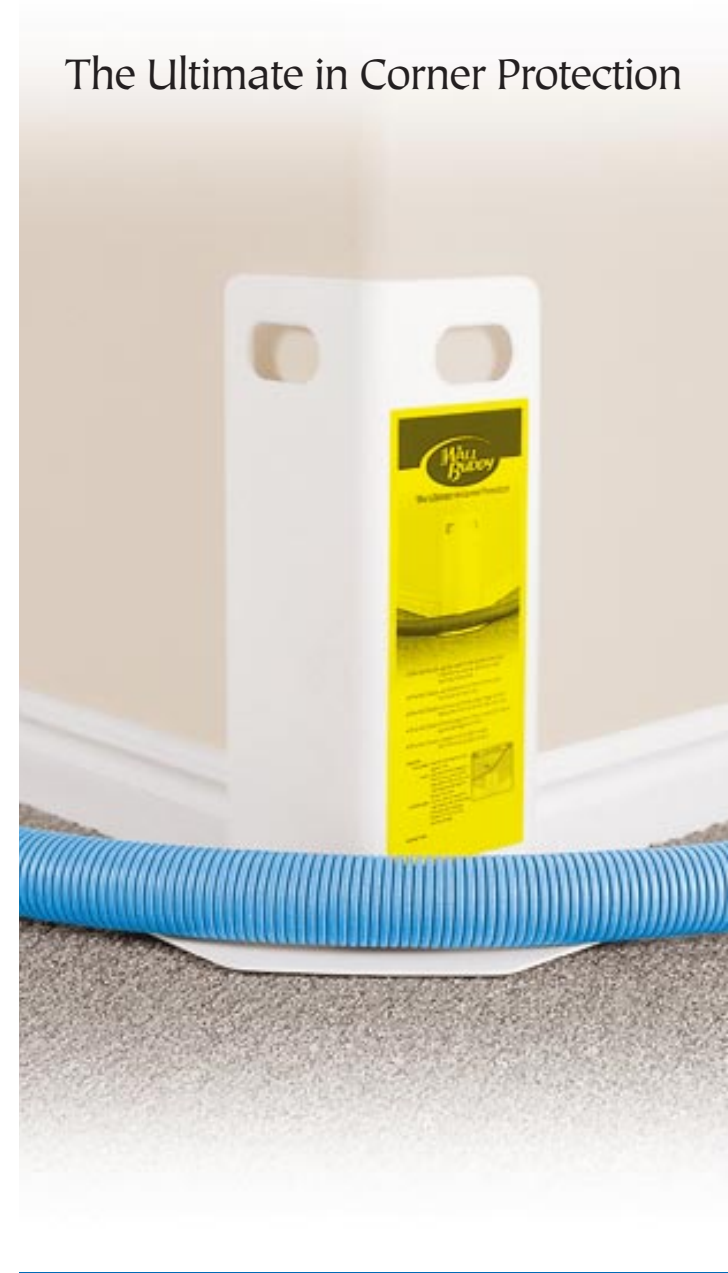

The Ultimate in Corner Protection

IMPORTANT:

To get the best protection, our research indicates the use of three Wall Buddy's per technician or truck for smaller jobs. Additional Wall Buddy's may be needed for larger jobs.

The Wall Buddy can be taken from job to job and will last for years.

Directions

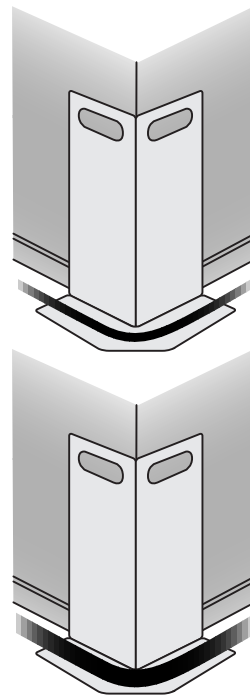

The Ultimate Solution in Corner Protection.

- The Wall Buddy can be used in the Carpet Cleaning Industry, as well as Janitorial, and Painting Industries.
- The Wall Buddy protects all of the Corners of the walls and Furniture on your job.
- The Wall Buddy portrays a professional image which reassures your customer that you care.
- The Wall Buddy protects against costly insurance claims due to damaged corners or walls.
- The Wall Buddy is made from a light weight non-marking durable plastic.
- The Wall Buddy can be sold to your customers who have central vacuum systems.

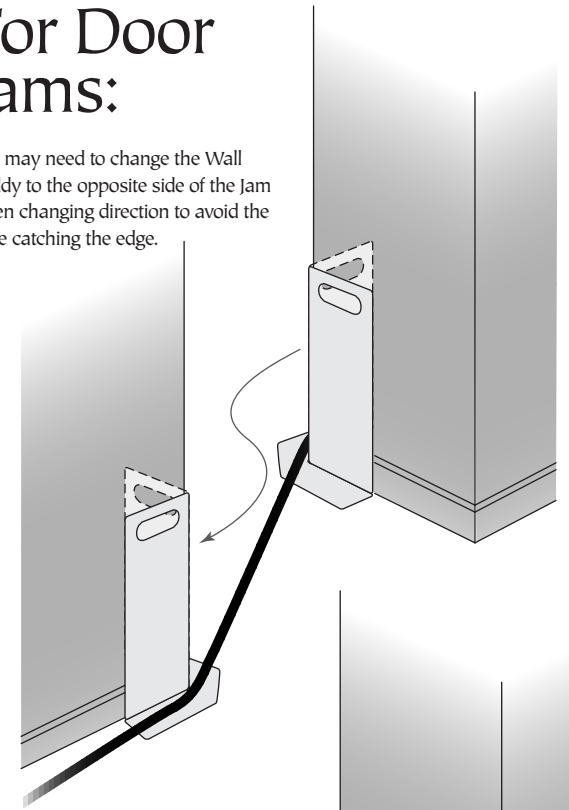

For Corners:

Place the Wall Buddy securely against corner.

For Door Jams:

You may need to change the Wall Buddy to the opposite side of the Jam when changing direction to avoid the hose catching the edge.

Caution:

Use caution when dragging a hose around a corner so the hose doesn't slide up above the Wall Buddy and damage the surface of the wall.
